## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1 – 10 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 1, for example, which include, a fish eye lens system having two lens group having (-, +) refractive power and the fisheye lens system takes maximum focal length state when the distance is minimum and minimum focal length state when the distance is maximum and the maximum image height in the maximum focal length state is different from that in the minimum focal length state, and in each focal length state the fish eye lens system has an angle of view of 170 degrees or more.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
